

Computer Based Aircraft Survivability Equipment (CBAT)

Scope

- Created and sustained Aircraft Survivability Equipment training (ASE) on 17 aircraft spanning 15 ASE systems
- Developed a comprehensive pilot test system and related pilot qualifications tracking database
- Integrated with the Digital Training Management System (DTMS)

Highlights

- A data-driven suite of training products that capitalized on reuse of common media assets to decrease sustainment costs
- Level I-IV lessons that teach all aspects of ASE equipment operation
- Digital “walk-arounds” that rotate 360 degrees to highlight components

ISO 9001:2008 CERTIFIED
