

## LCMR Common Front End (CFE) CBT Upgrade

### Scope

- Upgraded 20 hours of LCMR CFE CS 11-12 Computer-Based Training (CBT) content to maintain currency with the latest LCMR operating software
- Modified content to support engineering hardware configuration changes

### Highlights

- Utilized single simulation to support production of a large number storyboard media assets—reduced time to generate media by 30-35%
- Reduced future customer ownership sustainment costs through utilization of simulations versus development of a large number of Adobe Flash® animations

ISO 9001:2008 CERTIFIED
