

CREW Duke CLS Sustainment

Scope

- Converted CREW Duke Technical Manual (TM 11-5865-1042-23&P) from Microsoft Word® to MIL-STD-40051-2 format
- Updated previously delivered CREW Duke Computer-Based Training (CBT) to align training content with current AN/VLQ-12(V)3 operating system

Highlights

- Created software application to batch convert Microsoft Word® data into an electronic technical manual format saving 60-80% budgeted time
- Modified CBT runtime to permit removal of hardware from practical exercises by turning off simulation storyboard functionality
- Updated media with 3D images to support learning objectives stimulus
